

IZBrunch

Science meets Science

NETWORK-
EVENT IM IZB

November 18, 2021 | 10.45 am till 01.00 pm

Welcome/Moderation

Dr. Peter Hanns Zobel, Managing Director of the IZB

Theme: News of the IZB

Speaker

Dr. Simone Moser, Group Leader Pharmaceutical Biology, Center for Drug Research, Ludwig-Maximilians-University

Theme: From waste to resource - chlorophyll breakdown as source of bioactive compounds

Phyllobilins are formed upon chlorophyll degradation, and have been regarded as waste products of a detoxification process for a long time. A change of this paradigm, however, is long overdue. We reveal important pharmacological activities of phyllobilins and set the stage to investigate their roles as ingredients of herbal medicines and food.

Speaker

Dr. Sebastian Mangold, Managing Director mk2 Biotechnologies

Theme: Enabling peptides for mass application

mk2 Biotechnologies developed a novel peptide synthesis platform that enables the production of peptides on large scales and low cost while still fulfilling all the technical requirements. Customers can for the first time access required amounts of affordable peptides for applications in mass segments.

Location:

Faculty Club G2B
Am Klopferspitz 21
82152 Planegg/Martinsried

Format:

Face2Face event with keynote speeches (15 min.) plus Q&A followed by business lunch, Restaurant SEVEN AND MORE in the IZB Residence CAMPUS AT HOME

Participants: 30 guests (taking into account the 3G rules)

Who attends?

Faculty Club members, directors and research group leaders of the Max Planck Institutes, LMU professors, managing directors and board members of the IZB companies, and executives of the Martinsried/Großhadern campus.

Declaration of consent:

By participating in the IZBrunch, you agree that pictures and videos taken during the event may be used for promotional purposes, on the homepage and for press relations.

Due to the Corona distance rules, only 30 guests can participate in the event. We therefore ask for timely cancellation so that interested parties can move up. Thank you very much!
